## **My Social Partner**

A short time ago I hired Johan Wallin of My Social Partner to help Leather Medic increase our visibility to prospective customers. Up to this point we had not used any internet based media other than a standard WEB site.

Johan did an outstanding job explaining the various forms of social media and the benefit they have to my business. The process was easy and required no more involvement from me than I wanted it to. In a matter of a couple of weeks we had a fully functional sites for; Facebook, Twitter, You Tube, and Linked In.

Instead of spending a small fortune in marketing dollars trying to find customers I spent a fraction of my marketing budget making sure customers can find me!
